

# Our Place - and yours

*"My ancestors helped settle the area. I love our New Orleans culture and our lifestyle. I really get into the music festivals we have, Mardi Gras, and our food. I've only missed two Mardi Gras days in my life. I enjoy parades the way others enjoy football games. I went to a parade in another state and the people just stood there watching it; they thought I was strange as I moved around with the music and celebration."*

~ Linda Hattier
